

EXPOSED!

U.S. Government Secrets!

In: The Missing FBI Chapter

Did you know that in the 1940s to 1970s the U.S. government had some dirty, dark secrets?

There was a lot of spying and paranoia going down and the FBI was secretly investigating Albert Einstein for being a member of the communist party. It's a fact!

I read that in just released archives from a true FBI source.

The FBI had active files on tons of famous celebrities, too..

Frank Sinatra was under investigation for his alleged ties with The Mafia. The FBI was watching Frank closely.

Marilyn Monroe... yup.

Do you want to find out a whole lot more?

The FBI has files on millions of American citizens!

What has it got on you?

What do federal investigators already know?

As you seek answers to these questions, you could go to the FBI web site at:

www.fbi.gov

But they won't tell you there.

Better to get pre information about how to approach the FBI under The Freedom Of Information Act, and learn much, much more first from Net Detective.

P.S. You'll be able to dig deep into those *surprising* archives on famous names at the Federal Bureau of Investigation's own web site at www.fbi.gov --- but to start your own online investigations in the U.S.A. you'll need to grab yourself an instant membership to Net Detective, by clicking just below:
